

STATIC

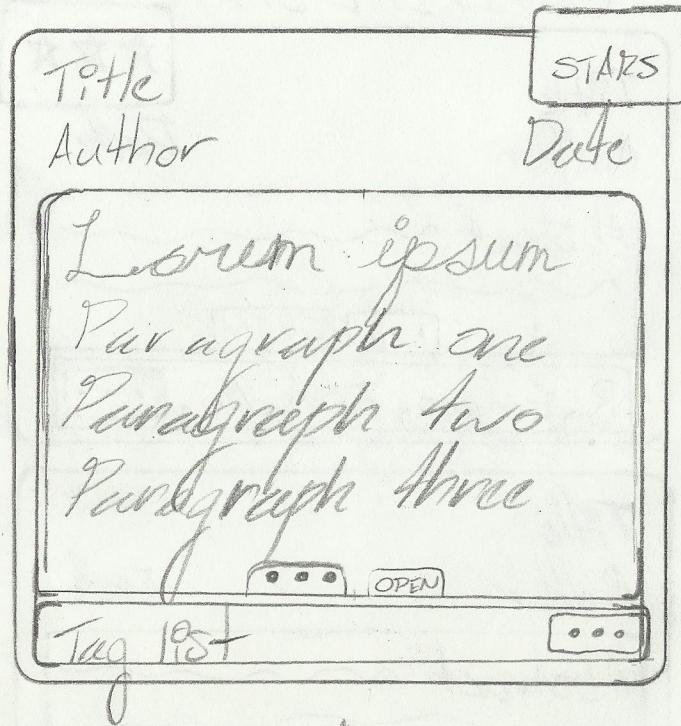

← More than
1/8" margin.

DYNAMIC (INITIAL STATES)

Opening an entry with "navigate" to the full-page of that entry. Other entries are hidden, and the entry is fully expanded.

When the ellipsis is clicked the card lengthens and another paragraph is revealed.

When the collapsed tag list's ellipsis-button is clicked, the tag list is removed from the card and placed below the card as in the Adobe design.

The space is taken-up by a new button to hide/collapse the tags into the card again.

Every tag should be navigable.
